

# 木屑熱壓機專業製造

## Specialist in Sawdust Hot-Pressing Machines

木屑集壓成型機  
Sawdust Press-Forming Machine

### 高經濟效益

- (1) 纖維質廢材料之資源再利用。
- (2) 將廢料再製成高附加價值產品。
- (3) 可生產多元化產品。
- (4) 低投資成本。

### A Cost-Efficient Machine

- Turns waste fiber materials into usable resources
- Reproduces waste materials into high value-added products
- Hot-pressed wood panels can be used to make diversified products
- Requires very low investment capitalization

特性：一體成型、節省能量、材料、塗料，表面光滑、耐水性高、不變形、具耐火效果。  
Features: One-piece forming saves on energy, materials, and paints, ensuring smooth surfaces, high water and fire resistance, and no deformation.

適用：雕刻門板、櫥櫃門板、天花板、鏡框、桌面板、椅座板、地磚、馬桶蓋等各式傢俱。  
Hot-pressed boards are used for making engraved door panels, cabinet door panels, ceilings, mirror frames, tabletops, chair seat panels, floorings, and toilet covers.

### 使用原料

- \* 成型原料：小徑木、碎木、木屑/膠水
- \* 面板原料：平切貼面單板/印花貼面紙

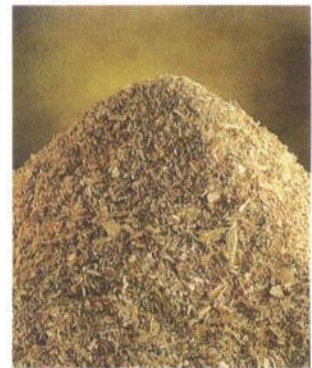

### Applied materials:

- Main materials: small wood strips, crushed wood, sawdust, and glue
- Surface materials: veneers, printed paper
